Subject: Public Comment(s) regarding Ohio's Submission to the Center for Medicaid and Medicare Services for an 1115 Waiver known as Healthy Ohio

My name is Ricky Arnold and I am a Medicaid consumer in the State of Ohio. The 1115 Waiver as submitted for approval to CMS will directly affect me as I am not disabled nor am I a pregnant woman or under the age of 18.

What concerns me about this Waiver application is that there is a very real possibility that it will harm more people rather than it will help. It is my opinion that many, many people will be cut off the program because it requires payments from people like myself who are on very limited incomes and the program will become extremely complicated and burdensome. If approved, the Waiver will ultimately force people off of Medicaid. For many of us, the State of Ohio's expansion of Medicaid under the provisions of the Affordable Care Act was the first time in our adulthood that we have had regular access to health care. If we are to stay healthy, the program as it currently exists must continue.

Here are my major concerns:

- ☒ Making a regularly monthly payment into a health savings account will be nearly impossible as I have a very limited income. Housing, food and transportation costs must come first.
- ☒ If I were dropped from the program, it would be next to impossible for me to pay what I owe plus the required payment to get back onto Medicaid.
- ☒ I do not have a bank account, nor could I afford the charges if I did set one up in order to pay the monthly co-pay.
- ☒ I have a chronic illness (lung, heart, diabetes, hypertension, etc.) that if goes untreated because I lost Medicaid coverage would create more serious health problems and end up costing the State even more if I have to access my care through the emergency room.

I urge you to NOT approve the State of Ohio's 1115 Waiver application.

Sincerely,

Ricky Arnold
